Item #11: Peralta Police Services

(1) • Over the past three years, has crime on campus increased, decreased or stayed at a steady level?

(2) • How much revenue was collected by Peralta Police Services (PPS) through parking citations last year?
• Where does revenue from parking citations go?

(3) • What will be the impact of these budget reductions?
What are the current levels of PPS staffing?
What will be staffing levels following reductions?

(4) • Regarding Securitas, will a separate contract be approved for Securitas — or is it implied in what is being proposed this evening?
If so, will Securitas be armed or provide an "observe & report" function?

(5) • Currently, Securitas provides services for BCC. One of the requirements of the Jeanne Clery Act is that a daily Public Information Log be maintained and available during business hours. This log has not been maintained since Securitas took over from Ari Security. ((over for question))

Will they begin reporting? If so, how will they coordinate with PPS, who currently maintains an accurate log?

(6) • If the sheriff's technician position is being cut, does this mean there will no longer be parking citations?

(7) • What are current overtime costs?
