

**p c c d** merritt college science center

**WLC** Architects

**Flad** Architects

team: great places for discovery and learning

team: proven relationship with the district

team: building on consensus- implementing the master plan

## bridging: process

### **Bridging:**

a desired result, an enforceable price and reduced risk of claims and change orders through a single point of responsibility.

### **Bridging Architect:**

defines program needs and architectural vision

produces documents as a basis for the design-build contract

represents the District's interests throughout the life of the project

### **Design/Builder:**

employs an architect of record/ assumes E&O responsibility

coordinates construction documents with subcontractors and vendors

competitively bids for construction contract.

sustainability: LEED® gold for Merritt College

"With 'Sustainable Peralta' we can learn and teach each other about the "Three E's" of sustainable management – **ecology, equity and economy** – and significantly reduce our district-wide ecological footprint,"

Peralta Community College District Chancellor Elihu Harris.

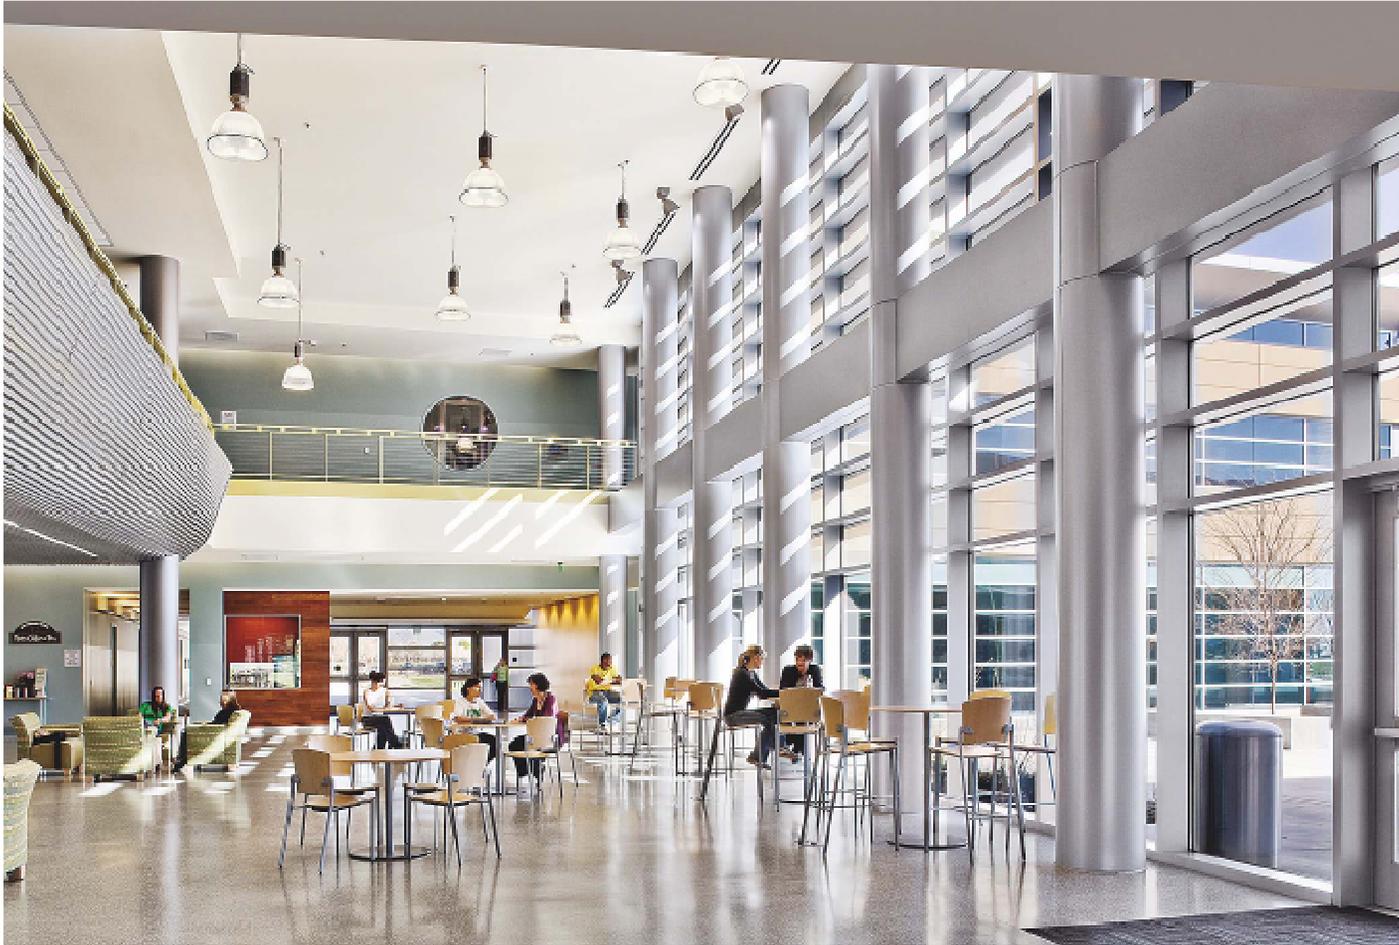

learning: new paradigms

**ohlone college newark center, the first LEED® Platinum campus**
