

**Petition to Keep Dean Bonita Schaffner at Berkeley City College**  
**5-25-2010**

Dr. Schaffner has always put the needs of students first which should always be our highest priority. She has been integral in the development of a cutting edge, industry-standard studio and computer labs with relevant equipment to create students who can walk away with real-world skills in a media hungry market.

I urge you to turn down any proposal cutting Dr. Schaffner's position from Berkeley City College. Without her, the students, the department, and the school will lose a prestigious nationwide reputation that distinguishes Berkeley City College.

Dear Peralta College Board Members:

My name is Andrew Juris. I am a current Multimedia student and Teacher's Assistant for several MMART classes and labs. I heard the news that Dr. Bonita Schaffner was possibly going to be removed from her position as dean at Berkeley City College due to budget cuts.

I STRONGLY suggest against this. I've been attending BCC since Summer of 2009, and since then, I have progressed so quickly and so far that I am getting professional work outside of the school as a software consultant, graphic artist, animator and private tutor.

In less than two years time, I am 100% confident that I will be employed at either PIXAR, Electronic Arts or Dreamworks Animation. I have the highest recommendation of all of my teachers, and the Multimedia department at BCC has allowed me to do this.

When I start working for one of these world-class companies, I will tell everyone that I got my foot in the door at BCC, and people will become more aware that this multimedia department is competitive with any of the private art schools in the Bay Area.

I urge you, please do not approve any proposal that will remove Dr. Schaffner from her position.

We need her for the vitality of this school.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Juris". The signature is fluid and cursive, with a large initial "A" and "J".

Dear Peralta Trustees,

To be completely candid, I would not have accepted a full-time teaching position at Berkeley City College, were it not for Dean Bonnie Schaffner. Prior Deans have devastated the morale of our department by neither seeking the input of our faculty on important decisions nor following through effectively on day to day work. Dean Bonnie Schaffner changed all that. Letting her go is losing the most competent person we've had in this position in a long time.

Dean Schaffner works hard and late and gets an enormous amount of work done. She is ethical and conscientious in all that she does. She has overseen the construction of a multimedia studio. She is respected and trusted by students and faculty alike. Her presence and dedication have transformed our department's morale and commitment.

Bonnie Schaffner is the most effective dean I've had in my eight years of instructing at BCC. I honestly don't know how we will function without her. Please do what you can to maintain her position at BCC.

Sincerely,

A handwritten signature in black ink, appearing to read "Rachel Simpson", with a long horizontal flourish extending to the right.

Rachel Simpson  
Full-time Multimedia Instructor  
Berkeley City College

Dear Peralta Trustee,

As a member of the BCC community, I am greatly dismayed to hear of the consideration of removing Dr. Bonita Schaffner as our division dean.

With the arrival of Dr. Schaffner, it became immediately apparent of the positive effect she had on the school. The matters she oversaw were handled efficiently and wisely, quickly turning around ineffective modes of administration.

Most importantly, Dean Schaffner has always put the needs of students first which should always be our highest priority. She has been integral in the development of a cutting edge, industry-standard studio and computer labs with relevant equipment to create students who can walk away with real-world skills in a media hungry market.

I urge you to turn down any proposal cutting Dean Schaffner's position from Berkeley City College. Without her, the students, the department, and the school will lose a prestigious nationwide reputation that distinguishes Berkeley City College from most educational institutions.

Sincerely,

Relationship to BCC Faculty

Dear Members of the Board,

As a former student of the Multi-media Arts Department at Berkeley City College I strongly urge you to retain Bonita Schaffner as dean of the department. It was under her leadership that the department is now known as one of the best in the Bay Area and it was the quality of this program that allowed me to make a career change to video production.

The cut that you are considering is short-sighted and will have a terrible effect on the Multi-media Arts department at BCC.

Thank you,

Joel Kurtz

Dear Peralta College Board Members:

Please do not remove Dr. Bonita Schaffner from her position as dean at Berkeley City College. She has been a great asset to the department. One of the reasons we've been able to have great classes, equipment, computers, and facilities for our multimedia classes is because Dr. Schaffner has done her best to make sure our needs are met. Even as budget cuts are necessary for our district to survive, she has done everything she can to make sure that we as students do not suffer too much from the cuts. She is an essential part of our department and for that reason, I urge you to not approve any proposal that may remove her from her position.

Sincerely,

Irina Mukhacheva

Berkeley City College Student and Teaching Assistant  
Multimedia Department

Dear Board Trustees (this is not a form letter, please read,)

Please retain Dean Bonita Schaffner! As you know the department of Multimedia at BCC is one of the strongest and finest examples of a multimedia department in the Bay Area. I attended Berkeley City, and before that Vista College, in order to retrain myself in digital video. Now, I have a blossoming Production company that is growing and succeeding thanks to the efforts of the dean and instructors. Indeed, the successes that I had at the college stand testament to that, with 5 Multimedia Awards and a National Telly award having come from my attendance. I could not have been able to achieve this without the support of the Department and Dean Schaffner.

I know time is short, please make the right decision for the students at BCC and retain her at Berkeley City college.

Sincerely,

Michelantony "Micha" Dunston  
Director of Photography  
Triple Spiral Productions

She is straight forward, hard working, knowledgeable and keeps us going! Without her expertise and dedication the Multi-media dept @ BCC will suffer greatly.

Please don't take this letter lightly!

Losing her as Dean could be the final breaking point for the multi-media dept!

Consider the grave consequences if you let Dr. Bonita Schaffner go.

Sincerely,

Lisa Simonson ,

TA Multi-Media Dept.

Berkeley City College Student

Dear Members of the Board,

Please do not remove Dr. Bonita Schaffner from her position as dean at

Berkeley City College. She has been a great asset to the department. One of the reasons we've been able to have great classes, equipment, computers, and facilities for our multimedia classes is because Dr. Schaffner has done her best to make sure our needs are met. Even as budget cuts are necessary for our district to survive, she has done everything she can to make sure that we as students do not suffer too much from the cuts. She is an essential part of our department and for that reason, I urge you to not approve any proposal that may remove her from her position.

The multimedia dept. at BCC has been a place where I have come to time and time again to learn needed job skills.

This department is even more important now, when so many of us are out of work and looking for that next step in our careers,

and computers and multimedia continue to define how we work and how we communicate.

Please keep Dr. Schaffner on board so she can continue to meet the students' and our community's needs!!!

>

> Sincerely,

Tari Fullerton, BCC Multimedia Student

Dear District Board Members,

I am writing in hopes that you will retain Bonnie Schaffner as Dean of the Multimedia department at Berkeley City College. As an ongoing student I have benefited tremendously from attending BCC's multimedia classes, and eliminating her position will affect me and hundreds of other students who dream of being editors, videomakers, screenwriters and motion graphics artists, and who don't have the funds to attend pricey schools like Expression, Art Academy and others.

The multimedia department has transformed over the past few years: we've finally built and equipped a functional shooting studio. We hired the amazing Bryan Gibbs to supervise audio/visual needs. The woman behind our success is Dean Bonita Schaffner, whose position was cut this spring due to budget. I honestly don't know how we'll function without Dean Schaffner; she's the one who finds funding for our equipment and TA's when the coffers are empty. She's the one who assists students when they need to add/drop a course and A&R is not functioning. She is straight-talking, hard-working, kind and tremendously effective.

Please keep Bonita and don't eliminate the dean position. We need a captain at the helm of this ship.

Sincerely,

Diana Stasko

Berkeley City College student

Dear Peralta Trustee,

As a member of the BCC community, I am greatly dismayed to hear of the consideration of removing Dr. Bonita Schaffner as our division dean.

With the arrival of Dr. Schaffner, it became immediately apparent of the positive effect she had on the school. The matters she oversaw were handled efficiently and wisely, quickly turning around ineffective modes of administration.

Most importantly, Dean Schaffner has always put the needs of students first which should always be our highest priority. She has been integral in the development of a cutting edge, industry-standard studio and computer labs with relevant equipment to create students who can walk away with real-world skills in a media hungry market.

I urge you to turn down any proposal cutting Dean Schaffner's position from Berkeley City College. Without her, the students, the department, and the school will lose a prestigious nationwide reputation that distinguishes Berkeley City College from most educational institutions.

Dear Peralta Trustee,

As a member of the BCC community, I am greatly dismayed to hear of the consideration of removing Dr. Bonita Schaffner as our division dean.

With the arrival of Dr. Schaffner, it became immediately apparent of the positive effect she had on the school. The matters she oversaw were handled efficiently and wisely, quickly turning around ineffective modes of administration.

Most importantly, Dean Schaffner has always put the needs of students first which should always be our highest priority. She has been integral in the development of a cutting edge, industry-standard studio and computer labs with relevant equipment to create students who can walk away with real-world skills in a media hungry market.

I urge you to turn down any proposal cutting Dean Schaffner's position from Berkeley City College. Without her, the students, the department, and the school will lose a prestigious nationwide reputation that distinguishes Berkeley City College from most educational institutions.

Most importantly, Dean Schaffner has always put the needs of students first which should always be our highest priority. She has been integral in the development of a cutting edge, industry-standard studio and computer labs with relevant equipment to create students who can walk away with real-world skills in a media hungry market.

I urge you to turn down any proposal cutting Dean Schaffner's position from Berkeley City College. Without her, the students, the department, and the school will lose a prestigious nationwide reputation that distinguishes Berkeley City College from most educational institutions.

Sincerely,

Relationship to BCC Student

Dear Peralta Trustee,

As a member of the BCC community, I am greatly dismayed to hear of the consideration of removing Dr. Bonita Schaffner as our division dean.

With the arrival of Dr. Schaffner, it became immediately apparent of the positive effect she had on the school. The matters she oversaw were handled efficiently and wisely, quickly turning around ineffective modes of administration.

Most importantly, Dean Schaffner has always put the needs of students first which should always be our highest priority.
