Re: Ratification of Agreements for District-Wide Security Services

We the undersigned Securitas Security Officers for the Peralta Colleges of Alameda County, come together today as one voice. We all enjoy working for Securitas because they are a responsible company who provide their clients with the best possible security services to better protect the students, property, staff and surrounding community.

Our country has fallen on hard times; we all work hard to put bread on our tables, a roof over our heads and nourishment for mind and body for our families. With the economy as it is, it would be hard for us to find work if we were to lose our present employment. We ask the board to keep this in mind when the time comes to decide what company will be used to secure our Community Colleges. We ask that the Board take this all into consideration and not compromise our livelihood by hiring only a responsible Union company that will provide for your needs.

Thank you,
