

Policy 1.22 Board Development

Board members are encouraged to attend professional workshops conducted by the California Community College Trustees (CCCT), the Community College League of California (CCLC), the American Community College Trustees (ACCT), and other professional meetings on an annual basis to keep current with important issues associated with post-secondary education. Each Board member is assigned to at least one Board committee where issues associated with The Peralta Colleges are pursued in greater depth than would be expected at a formal Board meeting.
