Consider approval of a contract with Roxanne Rivas to render project management services for the Department of Energy (DOE) Green Energy Job Training Initiative in Advanced Lighting Solutions at Laney College not to exceed \$9,300 through July 31, 2013. **Funding Source: Department of Energy (DOE) Grant.** The contract will allow Laney College to successfully implement grant objectives as approved by the Department of Energy. Timely completion of all existing grant deliverables and reporting is critical to meeting all grant agreements' objectives. Roxanne Rivas' scope of work addresses the objectives of the Green Energy Job Training Initiative in Advanced Lighting Solutions, including reporting, outreach and recruitment, assessment and enrollment, training and education, work activities, as well as significant workforce and professional development services, including job placement, retention and tracking. All Board approved contracts are subject to final negotiation and execution by the Chancellor. The Chancellor recommends approval.

16. Consider Approval of the Deputy Sector Navigator Grant for Advanced Manufacturing at Laney College **Presenter: President Webb**

Consider approval of the Deputy Sector Navigator Grant for Advanced Manufacturing at Laney College from July 9, 2013 through June 30, 2014 for \$300,000. **Funding Source: California Community College Chancellor's Office.** The grant is to be used to coordinate and collaborate regionally, and to develop effective sector partnerships with employers, regional consortium, community colleges, high schools, ROPs, Workforce Investment Boards (WIBS), and other regional organizations to ensure a skilled workforce in support of the regional economy and industry sector and to establish career pathways for the regional community into those regional economies. All Board approved contracts are subject to final negotiation and execution by the Chancellor. The Chancellor recommends approval.

17. Consider Approval of the Deputy Sector Navigator Grant for the College of Alameda **Presenter: President Gravenberg**

Consider approval of the Deputy Sector Navigator (DSN) Grant for the College of Alameda. The College of Alameda has received funding from the California Community Colleges Chancellor's Office, Division of Workforce and Economic Development, to support a deputy sector navigator program under the global trade and logistics sector. The grant amount shall not exceed \$300,000 through June 30, 2014. **Funding Source: California Community Colleges Chancellor's Office.** The College of Alameda (COA) proposes to establish a Global Trade & Logistics (GT&L) Deputy Sector Navigator (DSN) for the Interior Bay Area with the goal of providing a network of training resources to assist in promoting a skilled regional GT&L workforce. The DSN will convene and coordinate key partners in industry, education, and workforce and economic development by facilitating the development of effective GT&L partnerships and career

pathways. If the first year's pilot is successful, there is an opportunity for the funding for this program to be extended. It is then anticipated that by 2018, the DSN will oversee a system of structured and connected educational programs and support services that enable students to advance over time to better jobs and higher levels of responsibility in the growing GT&L sector. FINANCIAL SERVICES

19. Review of Purchase Order Report **Presenter: Vice Chancellor Gerhard**

The Purchase Order Report is being presented for review in accordance with Education Code Section 81656 which states, "All transactions entered into by the officer or employee (designated employees enumerated in AP 6330) shall be reviewed by the Board of Trustees every 60 days." This Purchase Order Report contains all orders issued from June 8, 2013 through June 28, 2013 which have been issued in accordance with applicable policies, procedures and laws by an authorized officer of the District. The Purchase Order Report is brought to the Board for informational purposes only.

20. Consider *Ratification* of the AP, Travel, and Consulting Contract Warrant Register **Presenter: Vice Chancellor Gerhard**

Consider *ratification* of the AP, Travel, and Consulting Contract Warrant Register from June 8, 2013 through June 28, 2013. Recent AP, Travel and Consulting Contract warrant registers are brought to the Board for *ratification* purposes only. The Chancellor recommends *ratification*.

21. Consider Approval of Budget Transfer Report **Presenter: Vice Chancellor Gerhard**

Consider approval of budget transfer report covering the period from June 8, 2013 through June 28, 2013. California Code of Regulations Section 58307 limits the District's expenditures to the amount appropriated for each major expenditure classification as approved by the Board of Trustees through the adoption of the District's annual budget or as amended by subsequent budget transfers or revisions. Due to this statutory control language, budget transfers that move budget authority between major object codes or classifications must be approved by the Board of Trustees. The budget transfers presented are requests originating from the Colleges' or District's departments during the ordinary course of operations and do not significantly alter the final budget that was approved by the Board of Trustees on September 11, 2012. The Chancellor recommends approval.

22. Consider Approval of Resolution No. 13/14-12 Appointing Retirement Board Members and Alternate **Presenter: Vice Chancellor Gerhard**

Approval of Retirement Board Resolution No. 13/14-12 appointing Retirement Board members and creating a new Board of Trustee alternate member. At its March 29, 2011 meeting, the Board of Trustees approved resolution number 10/11-62 recognizing the obligations associated with other post-employment benefits (OPEB) and establishing a Retirement Board whose charge is to oversee the investment activities of the District's OPEB Trust. Included in this resolution, the Board appointed five members to serve on the Retirement Board. Resolution 13/14-12 reappoints the original five members and establishes an alternate member. The members include Mr. Bill Withrow, Mr. Cy Gulassa, Dr. William "Bill" Riley, Ms. Meredith Brown (alternate), Ms. Trudy Largent, and Mr. Ronald Gerhard. **Funding Source: Not Applicable.** The Chancellor recommends approval.

23. Consider Approval of a Contract with Highstreet IT Solutions **Presenter: Vice Chancellor Gerhard**

Consider approval of a contract with Highstreet IT Solutions to implement the District's PeopleSoft Financial Aid System and provide technical support during implementation, in the amount of \$696,640. Project 3.7 of the District's Information Technology Strategy, Student Financial Aid System, calls for the implementation of the PeopleSoft Financial Aid module to increase efficiency of operations and reduce operating costs. A formal Request for Proposals (RFP 12-13/18) was released seeking assistance for the implementation of the Student Financial Aid System. Five firms attended the pre-proposal meeting and three responded to the RFP. A panel was convened to evaluate the proposals based on: vendors' submitted responses to bidder qualifications/experience; company and project team qualifications/approach; ability to meet the general, functional and technical system requirements; and costs. After detailed analysis and review, Highstreet IT Solutions was the highest-ranking responsive and responsible vendor. The average scores are summarized below:

Vendors	Average Score
Highstreet IT Solutions	568
ERP Analysts, Inc.	556
Ciber	519

The current Student Financial Aid System (SAFE) is a mainframe product running on our existing legacy mainframe. Peralta is the last remaining client for this 3rd party mainframe system by EMAS Pro and all annual update costs now fall solely on Peralta, rapidly escalating our cost. The prospects for EMAS Pro maintaining this system over the long term (at a reasonable cost) are unlikely. Additionally, the hardware on which we run the system is well past its lifespan and programming support must come from Peralta retirees whose willingness and ability to continue in this role are uncertain.

Peralta should implement the PeopleSoft Student Financial Aid module because we already own it. There are design problems with the delivered module that we will need to engage PeopleSoft to overcome. We were assured by PeopleSoft that this can be done. A formal Request for Proposal (RFP 12-13/18) was conducted for the Financial Aid Student System. Highstreet IT Solutions was the bidder that best met the evaluation criteria and had the highest average score. After further review of all proposals, the three companies who responded to the bid were invited to participate in the demonstration phase of the bid. Of the three bidders, Highstreet IT Solutions and ERP Analysts, Inc. met the criteria as established in their bid response, demonstration, timeline and costs, with Highstreet IT Solutions being the only one who presented a timeline/schedule for the whole project. However, CIBER did not include a total price for the project, instead they used the sample stated on the RFP. Whereby, Highstreet IT Solutions was the only responsive bidder whose submittal, based on product and costs, best serves the interest of the District. Mac Slingerland is the President/CEO of Highstreet IT Solutions. **Funding Source: Measure E.** All Board approved contracts are subject to final negotiation and execution by the Chancellor. The Chancellor recommends approval.

24. Consider Approval of Contract with Hicks Consulting Group **Presenter: Vice Chancellor Gerhard**

Project 3.7 of the District's Information Technology Strategy, Student Financial Aid System, calls for the implementation of the PeopleSoft Financial Aid module. A vendor has been selected to start working on the implementation of this module, but in the meantime Peralta still needs to maintain the current SAFE Financial Aid System in order to disburse financial aid to students. The District has contracted with Hicks Consulting Group since to 2005 to support the legacy SAFE Financial Aid System. Hicks was retained, at that time, because existing staff did not have the programming knowledge necessary to keep the SAFE system functioning. It is expected that at the conclusion of

the PeopleSoft Financial Aid module implementation project (Spring 2014) Hick's services will be no longer necessary. This contract with Hicks Consulting Group will ensure maintenance to our SAFE Financial Aid System during the implementation of the PeopleSoft Financial Aid module in order to streamline verification of eligibility determination and issue financial aid checks. The contract costs will also include, but are not limited to, the implementation of the financial aid system for the District, submission of FISAP and BFAP reports, as well as reporting management information systems (MIS) data for FY 2013-14. The not to exceed cost for this contract is \$190,000. The term of the contract is through June 30, 2014. All Board approved contracts are subject to final negotiation and execution by the Chancellor. **Funding Source: Measure E.** The Chancellor recommends approval.

27. Consider Approval of One (1) Bond Measure Budget Transfer and Appropriation (No. 48) **Presenter: Vice Chancellor Ikharo**

Approval is requested for one (1) bond measure budget transfer and appropriation (Number 48). The Administration will obtain approval from the College President, Vice Chancellor of General Services, Vice Chancellor of Finance & Administration and the Chancellor for this budget transfer and appropriation. With the intent of full disclosure, this budget transfer is now presented to the Board of Trustees for approval. On June 23, 2009, the Board of Trustees approved the Bond Measure (A and E) Spending Plan, which included budget appropriations, cash flow projects and budget transfer procedures. The Measure A budget included all current and future projects totaling the \$390 million bond amount. At that time, the Board of Trustees also approved the process for future budget transfers from one project to another, which included District and College approvals and subsequent approval by the Board of Trustees. Since that time, project scopes have been refined, and some net projects have been created.

In accordance with the Board approved Bond Measure Spending Plan, a budget transfer form will be completed for the budget transaction. The transaction indicates the current budget, revised or new budget and the transfer amount for both the budget that is being increased (credit) and the budget that is being decreased (debit).

Budget Transfer No. 48 of \$2,622,740 project budget is to accommodate the entire project costs for the District-wide Track and Field Replacement Project (also known as the District-Wide Athletic Fields Renovation) for Laney College, Merritt College, and College of Alameda. The \$2,622,740 estimated project budget will cover soft costs and the following construction project phases: programming, schematic design, design development, construction documents, bidding, construction, and occupancy. Soft costs consist of architectural design, Department of State Architect (DSA) inspection services, DSA review and plan check, advertising and contingency allowance for unanticipated items.

Originally, this project budget was approved under Measure E funds. Instead, the Chancellor recommended for the project budget to come from Measure A bond funds. On April 9, 2013, the Board of Trustees approved for Gould Evans to provide architectural design services for the project, in the amount not-to-exceed \$100,000.

Approval is requested to enter into an agreement with Mondo USA, Inc. to mitigate the deterioration of district-wide tracks at Laney College, College of Alameda and Merritt College, in the amount not-to-exceed \$1,400,000. The District and Mondo entered into mediation, since all three tracks in the District suffered a production defect because Mondo used a red dye (a non-Mondo product), which when mixed with the Mondo surface material created a chemical reaction that was deleterious to the tracks. This reaction caused the untimely deterioration of all track surfaces. The premature deterioration consisting of brittleness, dryness, and substantial chipping of the surface layers occurred within the Mondo five-year warranty period. Additionally the defect affected the college's track and training program and caused a complete alteration of the college's training program.

Peralta and Mondo mediated the dispute and reached the following agreement effective June 19, 2013, subject to the approval of the Chancellor and Board of Trustees. Under the Settlement Agreement and Mutual General Release, Mondo's scope of work shall include but is not limited to the following:

- Removal of the existing track surface, and manufacture, supply and install a new track surface, track and field line and event marking using a minimum 13.5 mm thick Super-X Performance track surfacing system with hexagonal backing.
- Installation shall be performed by expert specialized proprietary certified installers assisted by general laborers.
- Removal and disposal of the existing track surfacing and preparation/leveling of the exposed asphalt base suitable to receive the new track surfacing.
- All concrete slabs to receive track surfacing must be installed, on a minimum 12-mil polyethylene moisture barrier membrane, in accordance with accepted industry standards to protect the concrete from infiltration of water from the sub-grade.
- Install a topical moisture reduction barrier (TMRB) to protect the concrete from infiltration of water from natural or artificial causes.
- Use Aquafin Vaportight Coat SG2 applied at a rate of 160 sq. ft. per 2.1 gallon kit.

- Commence resurfacing work on the tracks by Mondo as soon as possible. The critical path for the work at each school is four weeks. The track resurfacing project for each school, including the track and field line and event marking, shall be completed no later than the dates stipulated in the agreement.
- Comply with all applicable California project labor agreement (PLA) and prevailing wage requirements.
- Mondo's standard limited/specified warranty conditions, five years on the synthetic surface and one year on the line markings, will be extended to ten years on the synthetic surface at all three colleges.

Mondo U.S.A. Inc. was incorporated in 1989 and is based in Conshohocken, Pennsylvania. Federico Stroppiana is the president of the corporation. Mondo will commence the track resurfacing work as soon as possible and the critical path for work at each college is four weeks. The track resurfacing project for each college, including the track and field line and event parking, shall be complete by the following dates:
